# CAPACITORS

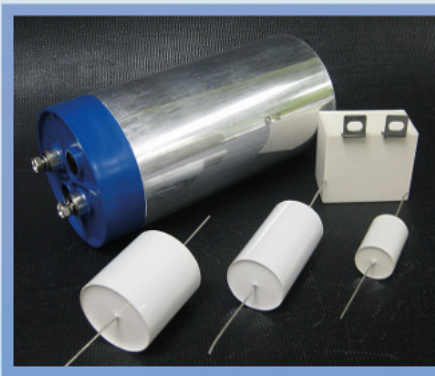

## MICA CAPS

### Mica Capacitors & Assemblies:

- Custom Designed
- Temperature Range -65°C to +260°C
- Voltages up to 100K VDC
- Soldering per J-STD-001
- Corona Resistant
- High Voltage packaging & encapsulation

### Typical Applications:

- Power Supplies
- Radar Transmitters
- Satellites
- Jet Ignition
- Pulse Forming Networks
- Power Transmission
- Down-hole Oil & Gas Exploration

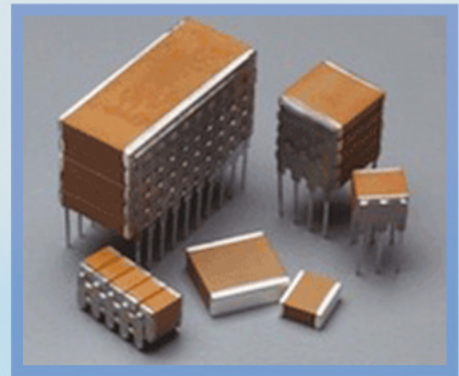

## FILM CAPS

### Film Capacitors:

- Feed-thru, designs
- DC Link, Precision Film
- Epoxy Dipped Radials
- RC Networks
- X-Y EMI Capacitors
- IGBT Snubber Caps

### Quality Certifications:

- AS9100C | ISO9001:2008
- ANSI/NCSS Z650-1 (MIL-C-45662)
- ANSI/ESD - S20.20
- J-STD-001
- IPC-A-610
- RoHS or Pb compatibility

## CERAMIC CAPS

### Ceramic Capacitors:

- In development - Advanced Ceramic Caps
- Custom Designed
- High Voltage Multi-Layer Chip Capacitor
- Low to medium volume
- Military & Commercial Grade
