ELECTROMAGNETICS

Inductors

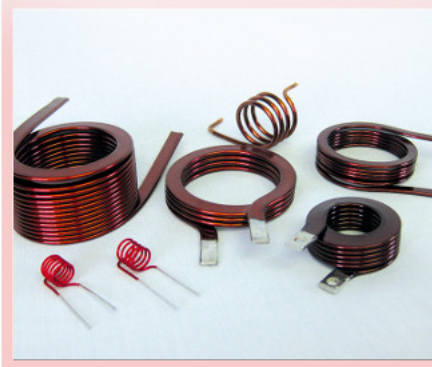

Products / Capabilities:

- Inductors
- Electromagnets
- Transformers
- Speed Sensors
- Voice Coils
- Air Coils
- Magnetic Pickup
- Toroids

Core Materials: Powdered-Iron,
Ferrite, MPP, Silicon Steel and Nickel Steel

Typical Applications:

- Audio
- Choke
- Autotransformer
- Coupled
- Current Sense
- DC / DC
- Filtering
- Gate Drive
- Flyback
- Pulse
- Isolation
- Switch Mode
- Step-Up/Step-Down

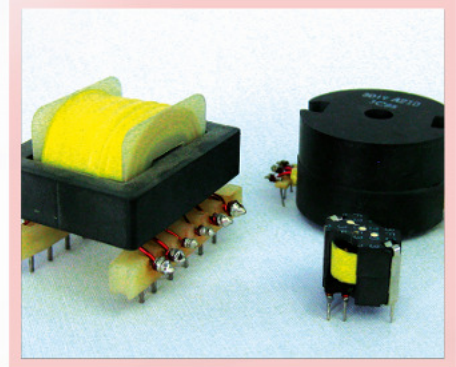

Edge Winding

Services:

- Custom Design and Consultation
- Low - High Volume Runs
- Rapid Prototyping
- 3D Modeling
- Electrical / Thermal / HV Testing
- Potting / Encapsulation Services

Quality Certifications:

- AS9100C | ISO9001:2008
- ANSI/NCSL Z650-1 (MIL-C-45662)
- ANSI/ESD - S20.20
- J-STD-001
- IPC-A-610
- RoHS or Pb compatibility

Transformers

Mechanical Specifications:

- Thru-Hole or Surface Mount
- Flat or Round Stock: AWG #6-#60
- Various High Speed Windings
- Edge Winding & Toroidal Winding
